Dr. Connor, formerly of Johns Hopkins hospital, who uses Nicotol in his practice, says: "The terrible craving for tobacco in any form may be quickly overcome by the simple use of Nicotol. It is not a substitute, it is absolutely harmless in every way and contains no habit forming drugs. The tobacco user does not quit the habit, but the habit quits him—the desire for tobacco vanishes and the victim is released from the slavery of nicotine without effort or inconvenience on his part. Read Dr. Connor's full statement soon to appear in this paper."

NOTE—Nicotol tablets are sold in this city under an iron-clad money back guarantee by all up-to-date druggists, including Lee & Osmond Co.
